For A Bilious Attack

When you have a severe headache, accompanied by a coated tongue, loathing of food, constipation, torpid liver, vomiting of partly digested food and then bile, you may know that you have a severe bilious attack. While you may be quite sick there is much consolation in knowing that relief may be had by taking three of Chamberlain's Tablets. They are prompt and effectual. Obtainable everywhere.

The Best Recommendation

The strongest recommendation any article may receive is a favorable word from the user. It is the recommendations of those who have used it that makes Chamberlain's Cough Remedy so popular. Mrs. Amanda Gierhart, Waynesfield, Ohio, writes, "Chamberlain's Cough Remedy has been used in my family off and on for twenty years and it has never failed to cure a cough or cold." Obtainable everywhere.

Something Good

Mrs. Palmer Sill went to Parkville, Mo., Saturday morning for a visit with relatives.

Severe Cold Quickly Cured

"On December first I had a very severe cold or attack of the grip as it may be, and was nearly down sick in bed," writes O. J. Metcalf, Weatherby, Mo. "I bought two bottles of Chamberlain's Cough Remedy and it was only a few days until I was completely restored to health. I firmly believe that Chamberlain's Cough Remedy is one of the very best medicines and will know what to do when I have another cold." Obtainable everywhere.

MUCH COAL IN SPITZBERGEN

Scandinavian Countries Are Turning
Their Attention to the Vast
Deposits There.

The difficulties in getting coal from England and Germany have attracted the Scandinavian countries to Spitzbergen, where enormous coal fields are still intact. The Spitzbergen coal is of the hard variety, and steamers in north Norwegian waters are very eager for it. It has, however, been rather difficult to keep the mines going—the climate is so disagreeable there that miners and laborers do not care to stay. Navigation is only possible a couple of months after midsummer. American business men, represented through the Arctic Coal company, hold the largest coal claims at Spitzbergen, on the south and east side of Advent bay. About fifty thousand tons of coal were mined there last summer, half of which has gone to Norwegian consumers.

This company, through its director, Scott Turner, is negotiating with Norwegian business men who want to buy the American claims and mines.

Besides this American company, British and Swedish stock companies are holding coal claims at Spitzbergen. A great Russian concern has an option on some Norwegian claims located at Green Harbor, and is going to work them in order to have coal to supply the new Russian railway running from Petrograd to Kola bay. The other Norwegian and Swedish coal companies are not willing to sell as long as prices on the European markets are maintained at their present high rate and with no prospect of dropping much the first few years after the close of the war.

UNIVERSITY GETS RARE FISH.

A scaleless fish with a head like a dog, so rare that it is now listed as the third ever captured, has been presented to the University of Washington by Mrs. Mabel Weiler of Gig Harbor. The species, which Professor Kincaid believes distinct from any other, is known as acrotus Wiloughbyi, from an Indian agent who discovered the first one and sent it to the National museum at Washington in 1887. The second specimen was obtained by the University of Washington some time ago. The third, alone, is in perfect condition.

FIND NEW DISINFECTANT.

According to the United States public health service, a new disinfectant, derived from pine oil, a by-product in the manufacture of turpentine, possesses qualities superior to ordinary disinfectants, being more than four times as powerful as carbolic acid for disinfecting purposes, yet nontoxic and without harmful effects when it comes in contact with delicate membranes or with fabrics or metals. This discovery is particularly valuable at this time because of the shortage of coal-tar derivatives for disinfectant purposes.

PARIS WAITERS COMPLAIN.

Paris waiters have sent a delegation to the minister of labor to vent their troubles. They say that tips, owing to the lack of small change, are becoming rare; that their employers are insisting on a percentage of their earnings, and that women are being called upon needlessly to supplant them.
